Rajan Kumar Mishra

Python Developer | PeopleSoft ERP

✉ *rajan.km991@gmail.com* ☎ *(+91) 8585911341* ⚑ **Delhi**, *India* in *linkedin.com/in/rajankm991*

PROFESSIONAL SUMMARY

Python Developer and Data Scientist with 4+ years of overall experience, including 2+ years focused on predictive modelling, data analytics, and automation, and 2 years in PeopleSoft ERP development. Skilled in Python, SQL, and machine learning to build scalable data solutions, automate reporting, and deliver actionable business insights. Proven track record of reducing operational costs, improving forecast accuracy, and increasing efficiency through data-driven strategies and machine learning models.

TOOLS & SKILLS

- **Programming & Libraries:** Python, Pandas, NumPy, Matplotlib, Scikit-learn, AI/ML, C/C++, HTML/CSS, Bash.
- **Data Analysis & Visualization:** Tableau, Power BI, Advanced Excel, KPI Reporting.
- **Database & Backend:** SQL, MySQL, MongoDB, Oracle Database, RESTful APIs, Kafka.
- **Tools & Platforms:** Jupyter Notebook, Anaconda, GitHub, Visual Studio, MS Office, JIRA.
- **PeopleSoft ERP:** Asset Management, Application Designer, PeopleCode, Application Engine, PS Query, File Layout.
- **Soft Skills:** Communication, Time Management, Problem-Solving, Creativity, Analytical skills, Team collaboration.
- **Languages:** English (Professional), Hindi (Native).

WORK EXPERIENCE

Python Developer (Associate) Dec 2023 – Till Date
Cognizant Technology Solutions Ltd. *Gurugram, HR, India*

⇒ **Asset Risk Prediction & Optimization**

- Decreased unplanned downtime by 10% by designing a risk classification & optimized maintenance scheduling system.
- Built and deployed a predictive maintenance model using PeopleSoft Asset Management data, achieving 80% AUC through Python, Scikit-learn, and SQL.
- Applied data science techniques using Pandas, Scikit-learn, and Matplotlib for statistical modeling and data visualization.

⇒ **Backend Development & Technical Ownership**

- Planned, built, and deployed backend solutions using Python and SQL, improving system scalability and reliability.
- Owned end-to-end technical delivery for multiple modules, including incident resolution, feature onboarding, and cross-functional coordination for support issue analysis.
- Reduced data latency by 15% by implementing RESTful APIs and robust messaging systems to streamline inter-service communication.

⇒ **Key Contributions:**

- Streamlined backend logic by integrating SQL, Python, and Kafka-based components, reducing latency in analytics pipelines.
- Directed cross-functional analytics initiatives, improving data quality and enabling faster, more informed business decision-making.
- Built scalable Tableau dashboards and automated financial/report generation using Python and SQL, saving 10+ hours per week.

Peoplesoft Developer (Programmer Analyst) Oct 2021-Dec 2023
Cognizant Technology Solutions Ltd. *Gurugram, HR, India*

⇒ **TriZetto Software Capitalization Automation**

- Designed and implemented end-to-end automation for TriZetto internal software journal entries and asset cost adjustments in PeopleSoft FSCM (General Ledger and Asset Management modules) using Application Engine, PeopleCode, and PS Query.
- Configured PeopleSoft Allocation Process with custom Allocation Groups and Steps; developed a custom setup page for Project ID–Business Unit mapping and created a Record View to extract source data.

- ❖ Reduced manual effort and error risk by integrating the allocation process with custom setups and validations, improving operational efficiency and accuracy.

⇒ **Key Responsibility as PeopleSoft FSCM:**

- ❖ Resolved production issues and supported month-end close activities for the Asset Management module.
- ❖ Optimized performance of SQR reports and PS Query, enhancing system efficiency.
- ❖ Led multiple PeopleTools upgrades (version 8.60.13), ensuring seamless transitions and minimal downtime.
- ❖ Executed end-to-end SIT, UAT, and Production migrations using the CAPI tool with zero unscheduled downtime,
- ❖ Automated weekly and monthly financial reporting, saving 10 hours per week and enabling more strategic analysis.

Data Science Intern Mar 2023 – Sept 2023

Access Million (part-time, held concurrently with the PeopleSoft Developer role above) *Remote*

- ❖ Streamlined SQL queries and guided sentiment analysis, improving data retrieval efficiency and insight quality.
- ❖ Collaborated on analytics and modelling pipelines, enhancing scalability and user experience by 10%.
- ❖ Improved forecast accuracy by 15% using advanced data modelling techniques, including regression and time series analysis.

Junior Engineer Aug 2021 – Oct 2021

Flextronics Private. Ltd. *Pune, MH, India*

- ❖ Built Agile-driven VBA macros that cut report preparation time from 2 days to 4 hours, shortening time-to-market.
- ❖ Delivered Excel reports and documentation that improved decision-making efficiency for senior management by 30%.

EDUCATION

MBA in Data Science Jan 2023 - Jan 2025
Amity University, Noida, UP, India. *8.23 CGPA*

B. Tech in Electronics and Communication Engineering Aug 2017 - Jul 2021
MIT School of Engineering, Pune, Maharashtra, India. *7.73 CGPA*

Higher Secondary Education (PCM) Apr 2015 - Mar 2016
SKB Sr Sec School, Gopalganj, Bihar, India. *65.80 %*

Secondary Education (10th) Apr 2012 - Mar 2013
Saraswati Vidya Mandir, Bettiah, Bihar, India. *8.80 CGPA*

CERTIFICATIONS

- ❖ Master's in data science & Analytics – Top Mentor.
- ❖ Tableau Developer – Top Mentor.
- ❖ Oracle Certified Foundation Associate - 2022.

AWARDS / ACHIEVEMENTS

- ❖ Amber Award: Recognized for completing projects within timeline.
- ❖ Associate of the Month for October 2023
- ❖ Got 2nd prize for winning IoT Hackathon - 2019.
- ❖ Amber Award (2026): Raising the Bar

DECLARATION

I affirm that the information provided in this resume is accurate and true to the best of my knowledge and belief.

Place: Delhi NCR
Date: 5th Oct 26
